⬥ EXPERIENCE

- **Organisation – Cognizant Technology Solutions (Pune)**
  Designation: Program Analyst Trainee
  Time Period: 18th July 2019 – Till Date

  Journey: I have worked on two application. Both are in the domain of JAVA and its frameworks like Spring MVC, Hibernate and open source tools – Apache Postman, Camel. I write critical business logic that is highly integrated and scalable. Working positively to fullfil clients requirement and complete my deliverable before time.
  Me being cordial gave my managers an easy option to choose me for the role of mentor where I guide all freshers who joins my project.
  Aside from work I have participated in couple of other events which includes Awareness for Cancer and teaching Science in Government School around my area. I like involving in some other area to a certain extent that it adds a grain of refreshment after which I could be more prodcutive with a fresh mind.
